

TO WHOM IT MAY CONCERN

Mr. **Alfons Gonzalez Perez** has been working in **Automatic-Trans, SL** as a **software engineer** during **5 years and 7 months**:

- **1 year and two months** from **September, 1, 2003** to **November, 30, 2004** working as his self employed company **Domotix.com**.
- **4 years and 5 months**, from **December, 1, 2004** to **April, 30, 2009** as an employee within the staff from **Automatic-Trans**.

His duties during both periods as a software engineer were:

- Developing and estabilizing the core of the **Automatic Translator System (ATS1)**.
- Developing **new drivers for different text formats**.
- Developing **peripheral applications dealing with morphosyntactic databases**.
- Developing **declinators and verb conjugators** for different languages.
- Developing **corpus segmenters** to add **translation memories**.
- Developing **spelling correctors**.
- Developing **word-to-family (forma-lema) fast AVL B-Tree indexers**.
- Developing **ad hoc projects for banking** and other client institutions.
- Dealing with the **linguistic team** to implement new functionalities.

Mr. **Alfons Gonzalez** has excellent technical skills as a software engineer and also good knowledge on linguistics, who made his work straightforward and very satisfactory.
